

Actually, you can get it to work.

1.

You log in and click " My Files "

2.You click on whatever you want to view.

[Science](#)

3. You click on whatever you want to select.

4.You click on the document.

[Paper-Recycling.gif](#)

5. You click on whatever part of the document you want. It separates the document into multiple pieces.

File "Paper-Recycling.gif" processed successfully. Click [here](#) to download the file.

Information

You are currently logged in as **16sametr**

Your home directory appears on the left. If you cannot see the entire contents of the window, the window is resizeable.

To upload to another user's drop box, navigate to that user's folder and use the upload dialouge box on the right.

There is currently a max file size download limit of 25 MB

Coming soon: Multiple zipped file downloads and drag and drop uploads

FTP Clients

Windows:

- [FileZilla 2.2.32](#)

Mac OS X:

- [Fetch](#)

Upload Files: (max 3)

Choose File no file selected Go

File "Paper-Recycling.gif" processed successfully. Click [here](#) to download the file.

6. You say yes to download the file.

You view your section of the document.

Mr. Schaefer can explain it better because he knows all about this stuff. I don't really fully understand it either but I hope that helps.
